

Project: **Derringer**
Location: **Choctaw, Oklahoma**
Type: Single-Family
Size: 3,935 sq. ft.

The Hollowpoint Master Plan in Oklahoma organizes 64 five-acre private estates around a series of lakes, rivers, and green space. This estate provides an ultra-contemporary juxtaposition to the natural environment, with boxy minimalist openings and muted architectural detailing. The emphasis is nature; this house brings nature inward with an internal courtyard, a perfect square interlude within a perfect square footprint.

Project: **Remington**
Location: **Choctaw, Oklahoma**
Type: Single-Family
Size: 3,904 sq. ft.

The Hollowpoint Master Plan in Oklahoma organizes 64 five-acre private estates around a series of lakes, rivers, and green space. This estate takes on a more rustic appeal, with timber posts and beams spanning between a pair of stone gable masses. Steel doors and windows help open up the rooms to the surrounding natural environment.

Project: **Cimarron**
Location: **Choctaw, Oklahoma**
Type: Single-Family
Size: 4,156 sq. ft.

The Hollowpoint Master Plan in Oklahoma organizes 64 five-acre private estates around a series of lakes, rivers, and green space. This estate emphasizes the surrounding open space with large flat eaves, giving shade to multiple open spaces. Thick vertical stone walls visually anchor the lightweight steel spans to the ground.
